

EASYMATE series

Portable liquid oxygen devices
EASYMATE 6 / 6+6 / 12

The **EASYMATE 6**, **6+6** and **12** are compatible with the most reservoirs currently on the market. The **EASYMATE** devices use a patented, fully pneumatic technology that enables battery-free operation. Patient care is provided through a single-lumen nasal cannula. As with the cover of the **EASYMATE-reservoir**, the housing of the **EASYMATE 6**, **6+6** and **12** also consists of a demonstrably very stable structural foam. The devices are supplied as a complete package with the user-friendly carrying case / backpack and the high-flow nasal cannula.
